## Employees and Students Need to Update Cellphone Information to ESS or GUS for New Alert System

UAMS has purchased the RAVE alert system, which will allow text messages and other communication types to be sent to employees and students during emergencies and inclement weather.

Setup of RAVE for UAMS' use starts March 1. To help ensure everyone receives these notifications, UAMS will be automatically enroll employees and students — known as an Opt-out approach. Therefore, in advance RAVE's implementation:

- Employees need make sure their cellphone numbers are on file in SAP.
- Students need to make sure their cellphone numbers are on file in GUS.

Cellphone numbers from SAP and GUS are not, and will not be, included in Outlook properties or the online organization chart.

Instructions for adding cell phone numbers to SAP and GUS are at the following link:
