Section: Academic

Affairs Area:

Subject: Repeating a Course

POLICY

When a course within the professional coursework is repeated, the grade earned in the repeated course is used to assess the student's fulfillment of the academic plan. Though all enrollments, original and repeated, will be shown on the student's transcript, only the grade in the repeated course (even if it is lower than the first) will be used to calculate the cumulative grade point average in the college.
