

Course Numbering Scheme

Course Numbering Scheme

4 character subject code

4 digit course number

1. First digit indicates level or professional program as listed below
 - a. 1-Freshman undergrad (UG)
 - b. 2-Sophomore UG
 - c. 3-Junior UG
 - d. 4-Senior UG
 - e. 5- Master's level/Physician Assistant/Doctorate of Audiology
 - f. 6-Doctoral level
 - g. 7-Pharmacy/Doctor of Nursing Practice
 - h. 8-Medicine
 - i. 9-"pseudo" courses-these will be used for transfer credit
2. Second digit indicate year in program that course traditionally taken if full time
3. Last 2 digits will be assigned with the guidance that courses are numbered with sequencing or pre-requisite courses having the lowest number.

Special topics and independent study courses will also have specific course numbers associated with them that we will define later.

An example of a course using this new scheme is below:

1st year Biochemistry course for MS students offered in the first semester:

BIOC5101 where BIOC indicates the department/program, 5 indicates Master's level, 1 indicates 1st year, and 01 indicates it is a course needed to be taken early in the curriculum.
